## Affordability

### Expenditure

We use an automated expenditure model directly in our affordability assessment however, further information will be requested in the following scenario:

- Where **any** part of the loan is being used for material unsecured debt consolidation (defined as greater than £35,000) **and** where disposable income is over £1,000 per month, we will require the last 2 months' consecutive bank statements for any sole or joint current accounts used by the applicant(s)

Bank statements will be assessed for account conduct, evidence of additional undeclared commitments and evidence of vulnerability (e.g. gambling transactions)

It is important to note that whilst we use an automated expenditure model, there are certain types of miscellaneous expenditure not covered by the model. Therefore, all applicants must declare any regular payments in respect of commitments made to family members/others, along with their own contractual committed expenditure (where applicable) and this will be added to the automated monthly figure

The areas of miscellaneous expenditure are: Ground Rent/Service Charge, Maintenance/Child Support, School/University Fees and Childcare/Nursery Fees

All deductions shown on payslips will be used when assessing affordability (ShareSave excluded)

### Stress testing

3% will be applied to both the first and second charge mortgage payments

The 3% stress test is not applied to our 5 year fixed rate products and/or where the first charge has more than 5 years remaining on the fixed rate (evidence will be required). In this instance, the stressed affordability will be subject to a minimum surplus of £100 per month

### Loan to income (LTI)

The table below defines the maximum LTIs, which are dependent on LTV

LTV	LTI
0% - 85%	6x

Where pension income is the only source or is the majority of income, the LTI will be restricted to 4.5x

### Buy to let properties

The rental income calculator on the DJ Broker Hub must be completed in all instances where the applicants have buy to let properties. If the rental income is to be used for affordability purposes, you will need to complete the Rental Income Affordability Calculator (See 'Other income sources – rental income on page 12)

Where the rental income is not being used for affordability purposes, you will need to complete the 'Rental Income Expenditure calculator' to ensure there is no shortfall. Should the calculator show a negative figure, this must be included as an additional item of expenditure

### Lending into retirement

If the loan term takes the applicant past the age of 67 or they declare an earlier retirement age, they must provide an explanation of how they will maintain the loan payments for the duration of the loan. At the time of application, if the applicant is within 10 years of their planned or standard retirement age of 67 (whichever is lower), we will require evidence of how they will maintain the loan payments for the duration of the loan

The matrix below demonstrates how we will assess an applicant that has more than 10 years until they retire, and the documentation required for an applicant who is within 10 years of retirement

Explanation	Documentation ≤ 10 years until retirement	Assessment > 10 years to retirement
Applicant confirms they will continue to work	Applicants must explain how they would meet the repayments in the event they are unable to continue to work and provide suitable evidence to support this	The nature of the work will need to be feasible.
Pension	<p>We require a copy of the pension statement and an assessment of likely income that this will provide using a 4% annuity rate</p> <p>The case must fit on affordability using pension income alone</p> <p>Where the pension income is the only source or is the majority of income, the LTI will be restricted to 4.5x</p>	Evidence is required in the form of pension contributions evident on payslips
Downsizing property	The remaining equity will be factored into the assessment to validate the property will generate the levels of surplus, available to downsize	
Additional BTL properties that can be sold and/or receive income from	Mortgage balances to be taken from the Equifax credit search and cross referenced against an AVM on that property
